

Bria: Working with her went well. She was a team player for the most part in my eyes because whenever me or josue had problems she usually knew what to do and how to fix the issue. She understood how to make our website responsive which i did not so having her help was very helpful. She worked on the catering page and photos page and both look very well done. She is a good teammate overall and communicating with her and working with her was a good experience.
